

Hello,

I am writing in reference to K Love radio. My family and I very much rely on this station for inspiration and teaching. It is nurishment for our souls just as our dailey bread is for our bodies. We would be devistated and distraught if anything were to take our K Love away from us. There is nothing like it in our area.

Please consider carefully how important this programming is to sooo many people. Listen yourself. They are loving and generous and compassionate. We need more of these stations, not less. The impact of this station is beyond measure. Take the time to do the research and listen with all your heart and soul to the needs of the people. We not only want, but need you to allow this type of programming to continue. We are better people because of K Love. Capable of so much good. Give us our K Love, please. Grant us our hearts delight.

Your humble listeners in Virginia Beach- The Polhemus Family
